A Bit About Bishopstrow

Nestled in 30 acres of rolling grounds and landscaped gardens on the picturesque River Wylde. Discover the charm and character of this classic English Country House, blending the perfect combination of a relaxed atmosphere and stylish refinement. At Bishopstrow, our dedicated team will ensure that you have our full undivided attention from the moment you arrive.

Bishopstrow has its own unique water supply collected from its own Borehole. The water is extracted from deep underground from the chalk Limestone formations from beneath Warminster. This limestone filters the water as it slowly soaks through the ground on its way to the Aquifer 60 meters below the surface.

Bishopstrow has been, and always will be, an iconic landmark of the rolling Wiltshire countryside. It has passed through generations of family lineage and through the changes of many hands; it has seen many moments of happiness and an equal measure of tragedy; it has risen from the ashes and yet, through it all, continues to be the beating heart of Warminster and beyond. A home away from home for its guests, as it has been since the early eleventh century, its warmth, vibrance and beauty is to be beheld by all.
